#### Part I - General Administrative Share of Plant Services Costs

California's indirect cost plan allows that the general administrative costs in the indirect cost pool may include that portion of plant services costs (maintenance and operations costs and facilities rents and leases costs) attributable to the general administrative offices. The calculation of the plant services costs attributed to general administration and included in the pool is standardized and automated using the percentage of salaries and benefits relating to general administration as proxy for the percentage of square footage occupied by general administration.

#### A. Salaries and Benefits - Other General Administration and Centralized Data Processing

1. Salaries and benefits paid through payroll (Funds 01, 09, and 62, objects 1000-3999 except 3701-3702)

#### Part II - Adjustments for Employment Separation Costs

When an employee separates from service, the local educational agency (LEA) may incur costs associated with the separation in addition to the employee's regular salary and benefits for the final pay period. These additional costs can be categorized as "normal" or "abnormal or mass" separation costs.

Normal separation costs include items such as pay for accumulated unused leave or routine severance pay authorized by governing board policy. Normal separation costs are not allowable as direct costs to federal programs, but are allowable as indirect costs. State programs may have similar restrictions. Where federal or state program guidelines required that the LEA charge an employee's normal separation costs to an unrestricted resource rather than to the restricted program in which the employee worked, the LEA may identify and enter these costs on Line A for inclusion in the indirect cost pool.

Abnormal or mass separation costs are those costs resulting from actions taken by an LEA to influence employees to terminate their employment earlier than they normally would have. Abnormal or mass separation costs include retirement incentives such as a Golden Handshake or severance packages negotiated to effect termination. Abnormal or mass separation costs may not be charged to federal programs as either direct costs or indirect costs. Where an LEA paid abnormal or mass separation costs on behalf of positions in general administrative functions included in the indirect cost pool, the LEA must identify and enter these costs on Line B for exclusion from the pool.

### A. Normal Separation Costs (optional)

Enter any normal separation costs paid on behalf of employees of restricted state or federal programs that were charged to an unrestricted resource (0000-1999) in funds 01, 09, and 62 with functions 1000-6999 or 8100-8400 rather than to the restricted program. These costs will be moved in Part III from base costs to the indirect cost pool. Retain supporting documentation.

# B. Abnormal or Mass Separation Costs (required)

Enter any abnormal or mass separation costs paid on behalf of general administrative positions charged to unrestricted resources (0000-1999) in funds 01, 09, and 62 with functions 7200-7700. These costs will be moved in Part III from the indirect cost pool to base costs. If none, enter zero.

| Part IV - Carry-forward Adjustment   |                |
| The carry-forward adjustment is an after-the-fact adjustment for the difference between indirect costs recoverable using the indirect            |                |
| cost rate approved for use in a given year, and the actual indirect costs incurred in that year. The carry-forward adjustment eliminates         |                |
| the need for LEAs to file amended federal reports when their actual indirect costs vary from the estimated indirect costs on which the           |                |
| approved rate was based.   |                |
| Where the ratio of indirect costs incurred in the current year is less than the estimated ratio of indirect costs on which the approved rate for |                |
| use in the current year was based, the carry-forward adjustment is limited by using either the approved rate times current year base costs,      |                |
| or the highest rate actually used to recover costs from any program times current year base costs, if the highest rate used was less than        |                |
| the approved rate. Rates used to recover costs from programs are displayed in Exhibit A.   |                |
| A. Indirect costs incurred in the current year (Part III, Line A8)   | 4,819,621.13   |
| B. Carry-forward adjustment from prior year(s)   |                |
| 1. Carry-forward adjustment from the second prior year   | 105,954.54     |
| 2. Carry-forward adjustment amount deferred from prior year(s), if any   | 0.00           |
| C. Carry-forward adjustment for under- or over-recovery in the current year  |                |
| 1. Under-recovery: Part III, Line A8, plus carry-forward adjustment from prior years, minus (approved indirect                                   |                |
| cost rate (4.36%) times Part III, Line B19); zero if negative  | 2,174,051.55   |
| 2. Over-recovery: Part III, Line A8, plus carry-forward adjustment from prior years, minus the lesser of   |                |
| (approved indirect cost rate (4.36%) times Part III, Line B19) or (the highest rate used to  |                |
| recover costs from any program (4.36%) times Part III, Line B19); zero if positive   | 0.00           |
| D. Preliminary carry-forward adjustment (Line C1 or C2)  | 2,174,051.55   |
| E. Optional allocation of negative carry-forward adjustment over more than one year  |                |
| Where a negative carry-forward adjustment causes the proposed approved rate to fall below zero or would reduce the rate at which                 |                |
| the LEA could recover indirect costs to such an extent that it would cause the LEA significant fiscal harm, the LEA may request that             |                |
| the carry-forward adjustment be allocated over more than one year. Where allocation of a negative carry-forward adjustment over more             |                |
| than one year does not resolve a negative rate, the CDE will work with the LEA on a case-by-case basis to establish an approved rate.            |                |
| Option 1. Preliminary proposed approved rate (Part III, Line D) if entire negative carry-forward   |                |
| adjustment is applied to the current year calculation:   | not applicable |
| Option 2. Preliminary proposed approved rate (Part III, Line D) if one-half of negative carry-forward  |                |
| adjustment is applied to the current year calculation and the remainder  |                |
| is deferred to one or more future years:   | not applicable |
| Option 3. Preliminary proposed approved rate (Part III, Line D) if one-third of negative carry-forward   |                |
| adjustment is applied to the current year calculation and the remainder  |                |
| is deferred to one or more future years:   | not applicable |
| LEA request for Option 1, Option 2, or Option 3  |                |
|  | 1              |
| F. Carry-forward adjustment used in Part III, Line A9 (Line D minus amount deferred if   |                |
| Option 2 or Option 3 is selected)  | 2,174,051.55   |
|  |                |

# 4. CRITERION: LCFF Revenue

STANDARD: Projected local control funding formula (LCFF) revenue for any of the budget year or two subsequent fiscal years has not changed from the prior fiscal year by more than the change in population, plus the district's gap funding or cost-of-living adjustment (COLA)\* and its economic recovery target payment, plus or minus one percent.

For basic aid districts, projected LCFF revenue has not changed from the prior fiscal year by more than the percent change in property tax revenues plus or minus one percent.

For districts funded by necessary small school formulas, projected LCFF revenue has not changed from the prior fiscal year amount by more than the district's gap funding or COLA' and its economic recovery target payment, plus or minus one percent.

30665630000000 Form 01CS D8BFW5JGHS(2022-23)

<sup>1</sup> Districts that are already at or above their LCFF target funding as described in Education Code Section 42238.03(d) receive no gap funding. These districts have a COLA applied to their LCFF target, but their year-over-year revenue increase might be less than the statutory COLA due to certain local factors and components of the funding formula.

### S8. Status of Labor Agreements

Analyze the status of all employee labor agreements. Identify new labor agreements, as well as new commitments provided as part of previously ratified multiyear agreements; and include all contracts, including all administrator contracts (and including all compensation). For new agreements, indicate the date of the required board meeting. Compare the increase in new commitments to the projected increase in ongoing revenues, and explain how these commitments will be funded in future fiscal years.

### If salary and benefit negotiations are not finalized at budget adoption, upon settlement with certificated or classified staff:

The school district must determine the cost of the settlement, including salaries, benefits, and any other agreements that change costs, and provide the county office of education (COE) with an analysis of the cost of the settlement and its impact on the operating budget.

The county superintendent shall review the analysis relative to the criteria and standards, and may provide written comments to the president of the district governing board and superintendent.
